Happy
April Fools
Day

April fool's day has been celebrated for centuries, what is the reason for such a mischievous day? Some may say it all started with a calendar shift from the Julian calendar to the Gregorian, before the Gregorian calendar New Year's Day was celebrated April 1st. After the shift people who celebrated New Year's Day on the first of April were considered fools.

Looking for a great prank? Try this "Brussel sprout cake pop recipe"

Clean and trim Brussel sprouts. Boil them on the stove until tender for about 5 minutes. Drain, let dry & cool. Insert the cake pop stick into the stem of each Brussel sprout. Using a small pot melt chocolate chips at a low to medium heat stirring continuously until all the chocolate chips have melted. Dip each Brussel sprout in the melted chocolate and tap off the excess, add sprinkles. Place each one upright in a jar with a paper towel to hold sticks in place. Refrigerate for at least an hour. Enjoy!

Happy Earth Day

Earth Day is an annual event on April 22 to demonstrate support for environmental protection. First held on April 22, 1970. Help celebrate our beautiful earth by planting a plant of any kind and remembering to recycle when possible.

Happy Easter

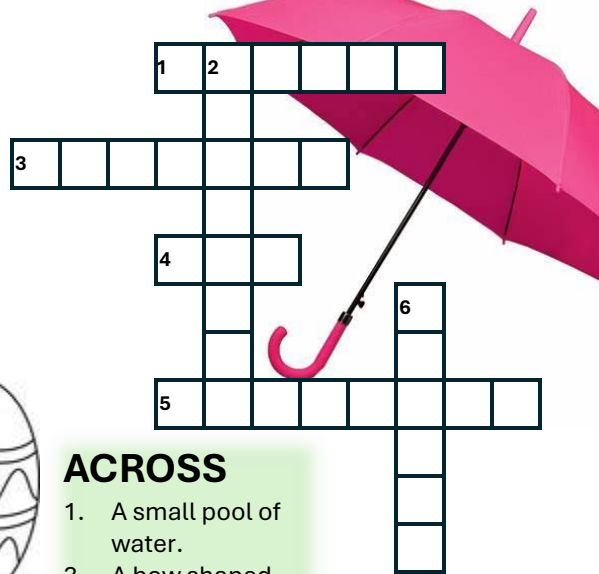

Why does the Easter bunny bring eggs?

According to Discovery News, since ancient times eggs and rabbits have been a symbol of fertility, while spring has been a symbol of rebirth. So even though rabbits don't lay eggs, the association of these symbols was almost natural.

Which came first the chicken or the egg?

The egg came first, as eggs in general, especially amniotic eggs, existed long before chickens evolved from their reptile ancestors.

Color me

ACROSS

1. A small pool of water.
3. A bow shaped display of colors.
4. Soaked with water.
5. Coat made of waterproof material.

DOWN

2. A portable canopy that protects the user from the rain.
6. A brief fall of rain.

May this season inspire you to bloom with endless possibilities. Have a beautiful Easter Sunday!
