Water Line flushing has been postponed over the last few years due to drought conditions, but it is a very important part of the District's maintenance program. With a full allocation the District will recommence our line flushing maintenance program. Our personnel will be flushing water lines in the District during the month of November. Customers may experience fluctuations in water pressure and/or cloudy water during this time.

We would like to thank you in advance for your patience during this very important process. Please feel free to contact the District office with any questions that you may have at (530)275-3002.
