RECLAMATION UPDATES 2018 WATER ALLOCATIONS

On April 20, 2018, the Bureau of Reclamation updated water allocations for the 2018 contract year. Due to late season storms, and favorable results of the California Department of Water Resources April snow survey, the Reclamation has increased water allocations.

For agricultural water service and municipal and industrial service north of the Delta, the Bureau has increased the allocation to 100%. As the water year progresses, changes in hydrology and opportunities to deliver additional water will influence future allocations. We urge our customers to continue to exercise conservation of our precious resource.

The Board of Directors will be discussing the 2018/2019 Operating Budgets at the May 9, 2018 Board of Directors Meeting. The public is invited and encouraged to attend.
