

MOUNTAIN GATE

COMMUNITY SERVICES DISTRICT

Established 1956

Mission Statement: It is our mission to provide the Mountain Gate Community with reliable, safe and clean water and fire protection services at the lowest cost possible.

Drought Conditions Continue

On Feb. 23, 2022, the Bureau of Reclamation announced initial 2022 water supply allocations for Central Valley Project contractors. Allocations are based on an estimate of water available for delivery to CVP water users and reflect current reservoir storages, precipitation, and snowpack in the Central Valley and Sierra Nevada. This year's low allocations are an indicator of the third consecutive dry year California is experiencing and will be updated if conditions warrant.

Shasta Lake 2/23/22

“We began the 2022 water year with low CVP reservoir storage and some weather whiplash, starting with a record day of Sacramento rainfall in October and snow-packed December storms to a very dry January and February, which are on pace to be the driest on record,” said Regional Director Ernest Conant.

Currently, CVP reservoir storage is below the historic average for this time of year and runoff forecasts predict that overall storage will be limited if substantial spring precipitation does not materialize.

Water Allocation for Mountain Gate

Based on current hydrology and forecasting, the Bureau of Reclamation is announcing the following initial CVP water supply allocations:

“Municipal and industrial water service north-of-Delta will be provided water for public health and safety needs consistent with the CVP M&I Water Shortage Policy.”

For our district that is roughly **25%** of our historical water use.

We Need Your Continued Help Conserving Water

Ways to Conserve Water Around the Yard

Use Drought-resistant Trees, Plants

- Using drought-resistant plants and trees can save 30–60 gallons per 1000 sq. ft. each time.

Install Drip Irrigation & Add a Smart Controller

- Installing a drip irrigation system and a smart controller can save 15 gallons each time you water.

Adjust Sprinkler Heads & Fix Leaks

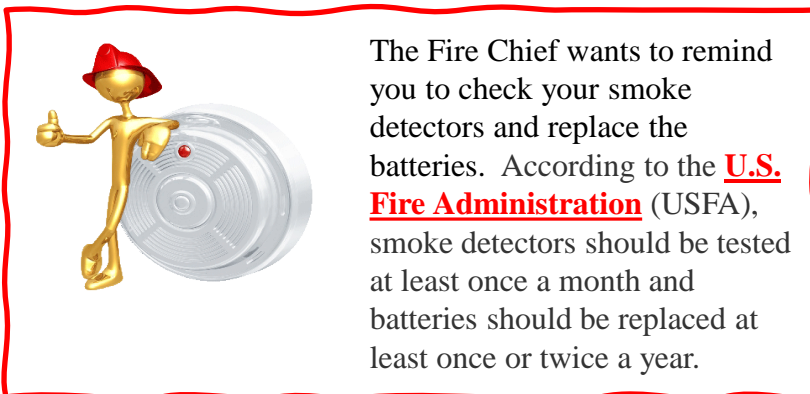

- Saves 12–15 gallons each time you water and a leak about as small as the tip of a ballpoint pen can waste about 6,300 gallons of water per month!

Set Mower Blades to 3”

- Setting mower blades to three inches encourages deeper roots and saves 16–50 gallons per day.

Use Mulch

- Using mulch can save 20–30 gallons of water per 1000 sq. ft. each time you water.

The Fire Chief wants to remind you to check your smoke detectors and replace the batteries. According to the **U.S. Fire Administration** (USFA), smoke detectors should be tested at least once a month and batteries should be replaced at least once or twice a year.
